

AKSHAY MEHTA

Irvine, CA | (703) 270-8880 | me.akshay.mehta@gmail.com | <https://www.linkedin.com/in/amehta11>

PROFESSIONAL SUMMARY

Enterprise Full-Stack Software Engineer with 12+ years of experience architecting cloud-native applications, scalable microservices, and AI-driven automation systems. Proven track record of leading cross-functional technical initiatives, and delivering solutions that maximize operational efficiency, automate business processes, and deliver measurable business outcomes. Adept at steering agile engineering teams through complex system migrations and modernizing legacy enterprise systems.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python

Frameworks & Tools: Node.js, React, Spring Boot, Fast API

Cloud & DevOps: AWS (or OCI/Azure/GCP), Microservices, Serverless, Docker, CI/CD pipelines

Databases & Architecture: RDBMS, NoSQL, Redis

REST APIs: API versioning, Schema validation

AI/LLMs: LangGraph, RAG, ReAct

WORK EXPERIENCE

Senior Software Engineer | Oracle - Irvine, CA Jun 2022- Present

- Architected a scalable LLM orchestration framework to automate the generation of drug/vaccine adverse event case summaries, leveraging state-machine-driven routing to enforce a deterministic narration flow, utilizing k-shot prompts to standardize clinical tone, and compose section-wise outputs into regulatory-compliant, submission-ready case summaries; reducing manual drafting time by 90%.
- Designed a LangGraph and FastAPI application that automated pharmacovigilance case follow-ups by analyzing adverse event reports for missing clinical information and generating follow-up email drafts, cutting review time from hours to minutes.
- Built full-lifecycle traceability with drill-down KPI visualizations to monitor under processing, processed and rejected cases, enabling workflow managers to ensure that any record that comes for system processing has reached conclusion/end-state within system defined SLA.
- Transforming legacy Oracle Argus Safety into a cloud-based solution; the resulting modern UX and AI capabilities became a key differentiator, significantly increasing lead conversion during sales pitches.
- Created a standardized, accessible React UI component library that unified the user experience across multiple product lines and significantly accelerated front-end development through code reusability.

Application Security Consultant | Synopsys - Irvine, CA Apr 2020 - Jun 2022

- Streamlined software delivery by orchestrating DevSecOps workflows covering 100+ microservices that synchronized security compliance with rapid release cycles, reducing security-related deployment delays.
- Built intelligent AppSec CI/CD pipelines that automate security gates based on risk profiles and code significance, ensuring compliance without stalling development.

Senior Software Engineer | Abas USA - Sterling, VA

Jul 2015 - Nov 2019

- Engineered a cloud-hosted ERP solution targeting 95% feature parity with legacy native systems; led multidisciplinary UI/UX, full-stack, and QA teams and used Extreme Programming (XP) to accelerate rapid prototyping and deployment.
- Developed an interactive process orchestration tool to automate ERP transactions, slashing manual workflow configuration time by 50%; built real-time dashboards that accelerated the resolution of process bottlenecks.
- Designed and deployed a highly available static web hosting architecture using Amazon S3, Amazon CloudFront, custom DNS configuration, and TLS certificate via AWS Certificate Manager, enabling secure low-latency global content access with near-zero operational overhead and cost.

EDUCATION

Master of Science in Software Engineering | George Mason University

May 2015

Bachelor of Engineering in Information Technology | University of Mumbai

Aug 2010

CERTIFICATIONS

Oracle Cloud Infrastructure Certified Generative AI Professional

Oracle AI Vector Search Certified Professional

AWS Solutions Architect

ADDITIONAL EXPERIENCE

Graduate Teaching Assistant | George Mason University - Fairfax, VA

Aug 2013 - Dec 2013

Research Assistant | Krasnow Institute for Advanced Study - Fairfax, VA

Dec 2012 - Jul 2013

Systems Engineer | Infosys - Pune, India

Jan 2010 - Jul 2012

Programmer Intern | Infosys - Mysuru, India

Aug 2010 - Dec 2010

LANGUAGES

English, Hindi, Gujarati, Marathi
